As hard as we tried, this entire Briley tube set will not fit on this page.

But then again, neither will the list of champions who use them.

In all fairness, we've been making tube sets for so many years, (over 35, actually), our list of winners *should* be that long. With their gleaming steel, bright anodized colors and laser-etched parts, Briley tube sets are just flat beautiful. But that beauty is far from just skin deep.

The list of features exclusive to Briley tubes is long, but the high-points include:

- Easy choke exchange,
- Supreme concentricity for superior shot distribution,
- The option to use extended chokes, and
- Far-and-away the best warranty in the the business.

So, if you're in the market for a tube set that will fit *your* game, give us a call or visit our showroom at:
